

# BUCKLES

## SOPRANO BUGLE

Acoustically designed for the soprano bugle player, this instrument delivers a brilliant sound with full resonance given to each individual note. Olds has taken care to assure the fullness of tone above high "C". The Olds Soprano Bugle is remarkably accurate in all registers.

Effectively braced throughout for durability, the Soprano Bugle is precision balanced for ease of handling while playing and carrying.

Equipped with hard shell case, mouth-piece and accessories.

**Weight:** 1 lb. 13 oz.

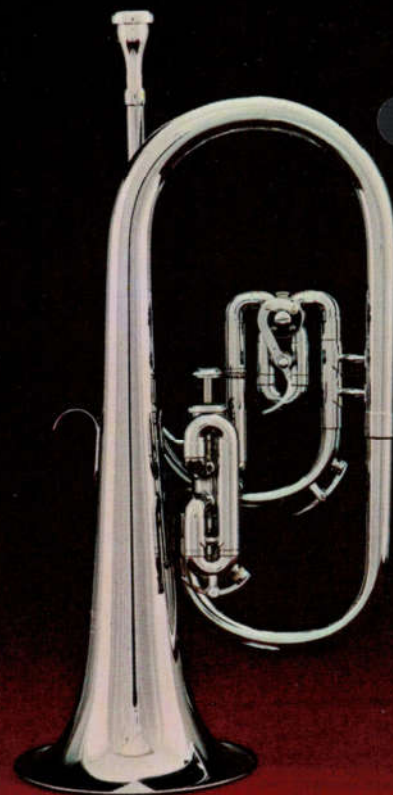

**Length:** 18"

**Valve Bore:** .468"

**Bell Size:** 5"

**BU-00 Duratone Soprano Bugle –**  
Brushed Nickel Plated Finish

**BU-01 Ultratone Soprano Bugle –**  
Brilliant Chrome Plated Finish

## FLUGEL BUGLE

Olds' most versatile bugle. The completely new acoustical and mechanical design produces the authentic flugel horn sound. The instrument's instant response permits complete control of intonation in all registers allowing it to be used as a solo instrument or to augment the section. The Flugel Bugle has a dark but distinctive resonant sound that contrasts perfectly with the soprano bugles.

Ruggedly constructed with bracing at all stress points for durability and years of trouble free service.

Equipped with hard shell case, mouth-piece and accessories.

**SPECIFICATIONS:**

**Weight:** 2 lbs. 1 oz.

**Length:** 16"

**Valve Bore:** .468"

**Bell Size:** 5-3/4"

**BU-02 Duratone Flugel Bugle –**  
Brushed Nickel Plated Finish

**BU-03 Ultratone Flugel Bugle –**  
Brilliant Chrome Plated Finish

## MELLOPHONE BUGLE

The Mellophone Bugle adds a distinguished rich timbre to the alto voice bugle ensemble. Precise intonation and a smooth, mellow tone quality make the Mellophone Bugle the show bugle that adds dramatic vitality to your routines. Superior flexibility and response provide ease of playing throughout the entire alto range.

The Olds Mellophone Bugle has been carefully balanced for ease of handling and playing with bracing placed at all stress points to improve durability.

Equipped with hard shell case, mouth-piece and accessories.

### SPECIFICATIONS:

**Weight:** 2 lbs. 12 oz.

**Length:** 18"

**Valve Bore:** .468"

**Bell Size:** 10-1/2"

**BU-05 Duratone Mellophone Bugle –**  
Brushed Nickel Plated Finish

**BU-06 Ultratone Mellophone Bugle –**  
Brilliant Chrome Plated Finish

## FRENCH HORN BUGLE

The Olds French Horn Bugle has been designed to contribute a rich tone comparable to the orchestral French Horn in the bugle choir. The most versatile and probably the most intricate of all bugles, this instrument has accurate pitch in all registers with an exceptionally true scale. The response and projection are of the finest quality while the tonal timbre offers complete versatility for blending with the remaining bugle voices.

The Olds French Horn Bugle has been properly balanced for ease of playing, and special bracing has been placed at stress points for years of trouble free performance.

Equipped with hard shell case, mouth-piece and accessories.

### SPECIFICATIONS:

**Weight:** 3 lbs. 4 oz.

**Length:** 18 1/4"

**Valve Bore:** .468"

**Bell Size:** 11"

**BU-09 Duratone French Horn Bugle –**  
Brushed Nickel Plated Finish

**BU-11 Ultratone French Horn Bugle –**  
Brilliant Chrome Plated Finish

## BASS BARITONE BUGLE

The Olds Bass Baritone Bugle has been designed to be more than a harmony or background instrument. Because of its accurate scale, the Olds Bass Baritone may be used for solos as well as harmony parts. The Baritone's full rich tone allows it to be used as the middle low or bass voice of the bugle ensemble. This instrument is responsive and produces true intonation throughout its entire range.

Rugged bracing has been placed at all stress points to provide durability and strength for many years of trouble free service.

Equipped with hard shell case, mouth-piece and accessories.

### SPECIFICATIONS:

**Weight:** 5 lbs. 4 oz.

**Length:** 23"

**Valve Bore:** .562"

**Bell Size:** 10"

**BU-14 Duratone Bass Baritone Bugle –**  
Brushed Nickel Plated Finish

**BU-15 Ultratone Bass Baritone Bugle –**  
Brilliant Chrome Plated Finish

## CONTRA-BASS BUGLE

The Olds Contra-Bass Bugle has the finest low register sound available. Complete and accurate chromatic scales are possible throughout all registers. Specially designed to produce a dark, well-centered tone. Structurally designed to allow the player to see to his left for correct guiding.

The instrument's weight is evenly distributed for perfect balancing and easy handling. Guards are provided for protection of the instrument's finish. For ease of repair or replacement, the Contra-Bass Bugle features a removable bell.

Equipped with hard shell case, mouthpiece and accessories.

### SPECIFICATIONS:

**Weight:** 16 lbs.

**Length:** 37"

**Valve Bore:** .656"

**Bell Size:** 16"

**BU-19 Duratone Contra-Bass Bugle –**  
Brushed Nickel Plated Finish

**BU-20 Ultratone Contra-Bass Bugle –**  
Brilliant Chrome Plated Finish

## DURATONE FINISH

Versatility has long been a trademark of F. E. Olds & Son. The new line of Duratone Bugles offers unique versatility with the combination of durability and distinctive finish. Duratone is a hard nickel plated finish over brass with a brushed nickel satin appearance for lasting beauty. The inner bell has a brilliant nickel finish that is comparable to the Ultratone chrome plated bell.

## ULTRATONE FINISH

The Olds Ultratone Bugle has long been recognized as the workhorse on and off the field. Ultratone's silver chrome plated finish over nickel plated brass assures extreme durability. In addition, normally inaccessible parts of the bugles are silver chrome plated. When you specify Ultratone, you are assured of receiving top-quality instruments with enduring beauty.

Among their numerous titles and victories, the Santa Clara Vanguard of California has the honor of holding the prestigious 1973 Drum Corps International Championship title.*

## OLDS BUGLES

First impressions are lasting impressions. That's why Ultratone and Duratone Bugles by F.E. Olds & Son will be your choice when you're looking for performance, style, durability and ease of maintenance.

Olds is truly an all-around performer. Precise intonation, instantaneous response and excellent projection are built into every horn. And your musical message is put out front where it belongs, thanks to the complete selection of bugle voices that are available to you.

In addition, only Olds offers two distinctive finishes. A highly polished chrome on the Ultratone line. And an attractive brushed nickel finish for the Duratone line.

Appearance is only one quality that makes Olds your ideal bugle choice. Add to this: Precise manufacturing standards, constant comparisons, and never ending improvements... and you'll soon know why the Olds trademark is your assurance of top performance.
