JUDGING BY: All-American Association of Contest Judges – Southern California Chapter,
Chief Judge, Mr. John Unterberg.

SCORE SHEET

[illegible]

JUDGING

For those of you new to Drum and Bugle Corps Field Contests, it may be interesting to know something about how the judges evaluate the individual units.

INSPECTION of each unit on the starting line, is the initial phase of the contest. Each member is carefully examined for neatness, and cleanliness of uniforms, shoes or boots, and instruments, or other equipment. Loose threads, dust, tarnished metal, need for a haircut, etc. are penalized, usually one-tenth of a point each.

MARCHING AND MANEUVERING is an important area for the judges to watch. The keynote here is uniformity, or as Mr. Jim Jones, of the National Champion Casper Troopers, refers to it, "Straight Lines and Even Spaces." Where you see a deviation from these two criteria, a judge will probably have marked one or more one-tenth point penalties.

DRUMMING AND BUGLING EXECUTION are carefully checked by the respective judges. Credit is given for the variety of styles and rhythms, as well as the difficulty of the music played. However, penalties are also assessed for mistakes in technique and execution.

GENERAL EFFECT is the judging caption which evaluates the whole corps; How it looks, how it sounds, and how it executes its music and field drill. Because of the nature of this rating, it is a "Build-up" caption, with points being added to the corps score.

Congratulations KINGSMEN!
